SUMMARY

B.Tech Information Technology graduate with hands-on project experience in software development, data analytics, software testing and AI applications, plus working knowledge of UI/UX design in Figma. Built and tested web applications, a Chrome extension and an AI document assistant, and completed a data analysis internship. Looking for an entry-level role where I can keep learning and contribute to real-world products.

SKILLS

Programming & Web: Java, Python, SQL, HTML, CSS, JavaScript
Data & Analytics: Data Analysis, Data Visualization, Power BI, Excel
AI Concepts: Large Language Models (LLMs), RAG, Artificial Intelligence (AI), Generative AI, API Integration
Testing: SDLC, STLC ,Katalon Studio, Playwright, Jira, Test Case Design, Trello
UI/UX Design: Figma, UI Design, Wireframing, Prototyping, User Flows
Tools: Git, GitHub, Canva

INTERNSHIP

Data Analysis Intern — Elysium Technologies, Madurai **2024**

- Gained hands-on experience in data cleaning, exploratory data analysis, predictive modeling and visualization using Python.
- Analyzed an Indian children's screen-time dataset using Pandas and Matplotlib to identify patterns and visualize trends.

PROJECTS

AI Document & Research Intelligence Python | Streamlit | LLM | RAG

- Developed an AI-powered document assistant that allows users to upload PDFs and ask questions about their content.
- Implemented a RAG pipeline to retrieve relevant document information and generate AI-powered responses.
- Integrated Groq API for AI-generated responses and Tavily API for external web research.
- Implemented three modes: Document Only, External Research and Combined Research.

Live Demo: Cognify Document Intelligence

Electricity Usage Anomaly Detector Python | Pandas | Scikit-learn | Manual Testing | Power BI | Streamlit

- Analyzed household electricity data using Isolation Forest to identify unusual consumption patterns; built a Streamlit application and Power BI dashboard for visualization.
- Tested CSV uploads, data validation, charts and anomaly alerts; executed 15 test cases, all PASS.

Live Demo: Electricity monitoring

MedShare – Medicine Donation Platform HTML | CSS | JavaScript | MongoDB | Playwright | Jira | Excel

- Developed a full-stack medicine donation platform with separate donor, recipient and admin roles, JWT authentication and 17 REST API endpoints.
- Tested key features including registration, login, medicine search, form validation, navigation and role-based access.
- Designed a 7-screen recipient journey in Figma covering discovery, details, request confirmation and status tracking.

Live Demo: Medshare
Figma Prototype: View Design

ConsentSync – Privacy Policy Analyzer HTML | CSS | Manual Testing | Chrome Extension APIs | Excel

- Developed a Chrome extension to analyze privacy policies, track cookies, check website permissions and generate privacy scores.
- Ran functional and UI testing across modules; documented 17 test cases, all PASS, with 0 open defects.

ACHIEVEMENT

- Won 1st Prize at TechUtsav'25, Thiagarajar College of Engineering, for analyzing business data using Power BI and developing interactive dashboards to visualize KPIs and trends.

EDUCATION

B.Tech Information Technology Velammal College of Engineering & Technology		CGPA:8.28	2022-2026
HSC	MRR.MAVMM. Matric Higher Sec School	87.3%	2022
SSLC	MRR.MAVMM. Matric Higher Sec School	72.6%	2020

CERTIFICATIONS

Deloitte – Data Analytics Job Simulation

Microsoft & LinkedIn – Career Essentials in Generative AI

Great Learning – Oracle SQL

Google(coursera)- Foundations of User Experience (UX) Design

Simplilearn – Automation Testing Basics

AWS – Cloud Practitioner Essentials

IBM – Data Science 101 (CognitiveClass.ai)

Katalon – API Testing With Katalon
